THE ARROW 1958

A Picture Story of the School Year 1957-58
Milwaukee Country Day School

Volume Thirty-One

This page is dedicated to the many companies and individuals who have made this book possible. They have also made possible a more extensive layout and coverage of school affairs because of their willingness to have their names appear in a list rather than on a number of pages of advertising, which in the past have amounted to almost one-half of the book.

Because of printing deadlines for this first portion of the book, we have had to place the list in a latter section. But we do want to give recognition here.

The Editors

To Paul Waterman, P.W.W., this yearbook is affectionately dedicated. But what do we say with words, which at this point are inadequate? How does one sum up thirty-eight years of devotion to Country Day and its students?

We don't like the idea of saying good-bye. We'd rather recall the speech accents reminiscent of Vermont; the masterful performances on the night of Mujiji; the everlasting patience in math class with many of us who were dullards. The fond regards of nearly a thousand graduates go with you, Paul. But we won't say good-bye; it sounds too final. We prefer its older form: God be with you.

While all this was going on, the Freshmen were undergoing a number of rich experiences.

One of these was a form of private tutoring offered by the Seniors:

J. Taylor, W. Stevens, R. Kuehn, C. Wamvig, P. Boice, W. Darling.

Another was a sometimes bewildering approach to the study of English:
